

Dear authors,

Congratulations again for the acceptance of your work for **TrustFL-SIS: Trustworthy Federated Learning for Smart Industrial Systems** at ICDM 2026.

Please read the following instructions carefully for preparing and submitting your camera-ready file.

We are using IEEE Conference Publishing Services (CPS) to collect camera-ready papers and copyright forms. Please do NOT upload your camera-ready papers or copyright forms to CyberChair.

Instead, submit your camera-ready papers and copyright forms at the following link, which also contains more detailed instructions on preparing them (including instructions for validation with PDF eXpress):
<https://ieeecps.org/cps/v2/author-kit/dashboard/2KnH5P2Tdk5q8gARXritEn>

If you have never used CPS before, you will be required to *Sign Up* and create a new account before being able to submit. Please use the same email address that you used for the manuscript submission. Please note this is separate from an IEEE membership login.

Make sure you are submitting your Camera Ready to the ICDMW portal and not the ICDM portal. Also please note that ICDMW follows some separate guidelines from ICDM so be sure to observe the instructions from the ICDMW author kit.

Please make sure to adhere to the following rules for your camera-ready submission:

- Regular Papers have a limit of 8 pages, including references and appendices
- Short Papers have a limit of 6 pages, including references and appendices.
- For papers transferred from the main ICDM conference, this may mean modifying the body of your paper.
- You may purchase 2 extra pages at 125 USD/page for both Regular and Short Papers.
- You may alternatively add a link or reference to the “full” version of your paper (hosted on a legitimate platform such as ArXiv or GitHub) in your standard-length Camera-Ready submission

Should you have any questions about submitting the camera-ready paper and/or the copyright release form, please contact the publication chairs: Prof. Yanfeng Zhang (zhangyf@mail.neu.edu.cn) and Prof. Xinjian Luo (xinjianluo@sjtu.edu.cn) or IEEE CPS Production Editor Martha Nunez (martha.nunez@contractor.ieee.org).

Camera-ready Deadline: 11:59 PM PDT, October 4th, 2026

Thank you for your cooperation and we look forward to seeing you in Shenyang for ICDM 2026.

Regards,

Organizing Committee

TrustFL-SIS 2026 - *Trustworthy Federated Learning for Smart Industrial Systems*
